Written report : june 2006

Summary

In spite of a computer-aided platform mainly integrating digital technologies, a specialized training offer in the wood industry, a boarding school and a canteen, our high school is lacking candidates. That's why the school has been proposing to volunteers (12 to 15 pupils) another diploma in addition to the initial qualifications in the industrial sector and in the wood-building industry. Pupils can prepare a diploma (brevet d'assistant professionnel animateur technique or BAPAAT) to become coordinator of sport practices and leisure activities such as climbing, rollerblading, mountain biking or archery.

This project was co-financed by the state, the region and the European commission. It was introduced by an inspector from the local offices of the Ministry of Youth and Sports, his counterpart, a regional councillor and a representative from the educational office said : « We are now facing a set of issues: Young people are more and more concerned by their education surroundings».

This project, as underlined by a regional council representative, is in line with the Vosges economic development. « Our civilization leaves more and more time for leisure. And regulations are stricter and stricter in terms of supervision and training. This first level diploma (BAPAAT) will allow people to work at week-ends as well as during worked-out time schedule. Therefore, we give them multi-skills for a multi-activity life.»

Two informative documents :

- Introducing booklet « Prepare two diplomas at the same time » :

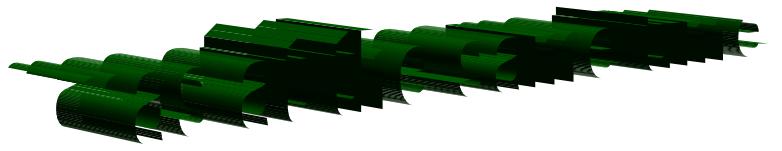

- To teach an open-air activity,

- To have a job in a firm.

- Preparing the BAPAAT : training description.

Key-words

STRUCTURES	PRACTICAL DEVICES	THEMES	SUBJECTS
Vocational high school	Partnership	Knowing the vocational world Environment Evaluation Orientation	Vocational teaching

2 To have a job in a firm

- 2 fields of skills

Sawmill

Joinery

1- Computer-aided wood processing. (BAC PRO)

Machining technician

2- Computer-aided Mechanical engineering.

The attraction for studies in a natural habitat is worth the attraction for studies in town

If you like sports, nature and you want to be paid to teach a sport activity,

Welcome to Saulxures High-School where you'll prepare your BAC-PRO and a Sport diploma level 5
